TnB 4 senior				5:00 – 5:30pm
TnB 7 & 8				6:00-6:30pm
TnB 9				5:30 -6:30pm

Classical & Tap'n'Beats

At Tech Steps we offer two different Tap syllabi. Classical tap is an old-style syllabus with travelling steps requiring good technique and showing light and shade in sounds (think Fred Astaire & Ginger Rogers). Tap'n'Beats is a modern style of tap designed by the Tap Dogs. It's loud, fast and heavy, full of rhythms.

Beginners Tap

For ages 7 and up our Beginners Tap is a structured class that teaches the basics of tap dance in an engaging way. Students learn the tap specific terminology and experiment with different rhythms.

Primary Tap

In Primary Tap students refine their technique on the barre, start turning, and further their development in recognising rhythms and timing.

Tap 1 & 2

In Grade 1 students expand on their repertoire of steps and combinations. They learn how to blend rhythms within a step and work on presentation and style. In Grade 2 students start learning more complex steps such as flaps, wing preparation and turns.

Tap 3 & 4

By Grade 4 students can perform a variety of complex steps and work further on their clarity of beats. They begin to show light and shade in their performance as they master control with turns and travelling steps.

5 & Senior Tap

Senior students have mastered turning, pickups and learn more complex steps such as winging and single-footed pickups. They continue to develop control with speed and blending rhythms.

Tap'n'Beats is more of a street style of tap that is heavy with attitude. Classes go up in levels with modern music and catchy rhythms. Contact us if you're unsure what level your child would fit into.
